Group Travel Planner

Problems

There is unmet demand for group travel

Planning a group trip independently can be difficult

Group trip planning requires a lot of time, including hotel search and route planning

Target Audience

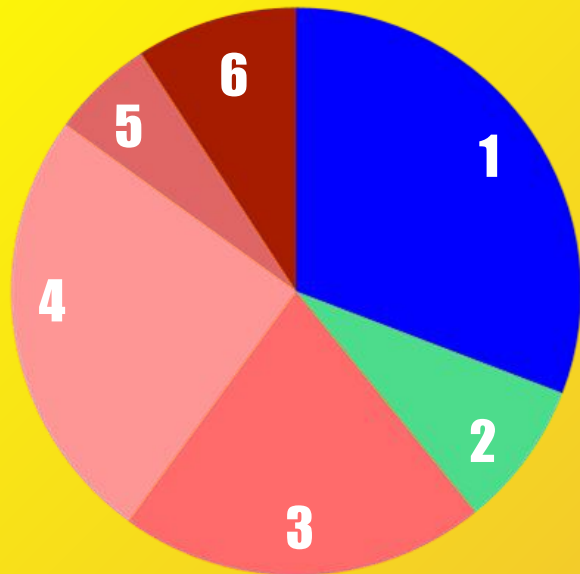

Groups of young people and students

Friends and families organizing a shared vacation

Small corporate teams

Survey Results

- 1 — I do not participate in group trips
- 2 — I participate and do not face any problems
- 3 — Mismatched interests with other participants
- 4 — Difficulties with route planning
- 5 — Conflicts within the group
- 6 — Low flexibility of the shared schedule

Enable

I've started listening to the chat!

Now just chat in the group:

- Tell me about your interests and hobbies
- Say where you would like to go and where you definitely do not want to go
- Specify your budget: minimum and maximum
- List what you would like to do on the trip (for example: sea, museums, food, nature)

When you are ready — press "Stop listening".

After that, I will collect everything you wrote and send you a ready-made proposal for a group trip!

18:27

as we're getting back to organizing our tour next week
(reminder: 10.05.2025–17.05.2025), where would you like to go?

Lev Zilbi

I'd like to go to Lake Baikal. Do you have any suggestions?

AM

I love nature! We should definitely visit Shaman Rock as well.

18:34

Andrey M.

I love nature! We should definitely visit Shaman Rock as well.

Awesome!

Since we have 150,000 rubles for the trip, we'll fly out from St. Petersburg
and can go then. I'm waiting for everyone!

Disable

Your tour is almost ready!

I'm already selecting the best routes, calculating the budget, and analyzing the team's interests.

In the meantime — here's an interesting fact 🌐:

Shaman Rock on Lake Baikal got its name from the ancient beliefs of local residents connected with this place.

18:35

Lev Zilbi

Disable

Almost everything is ready!

We already know that we should look for tours to Lake Baikal and Shaman Rock with a budget of no more than 150,000₽.

We're selecting the best route — just a little left!

PreProcessing

Input

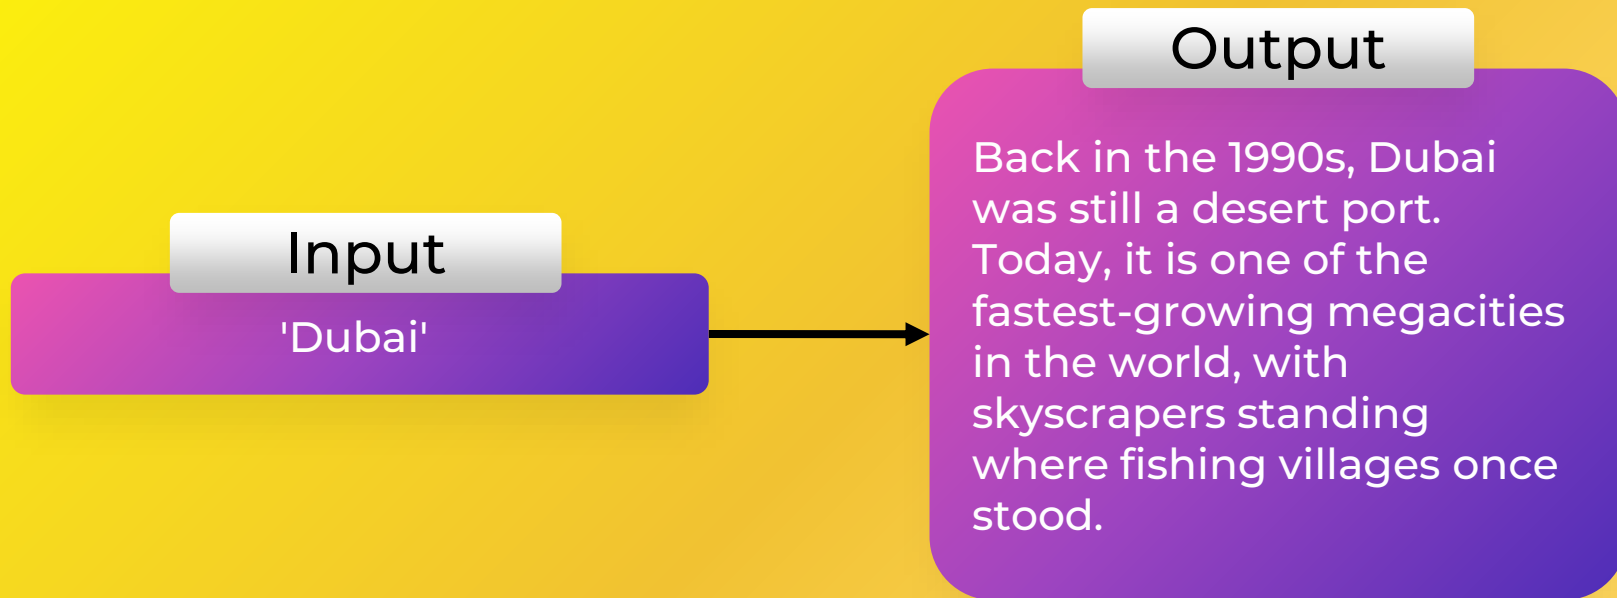

I want to travel in June, sometime between the 3rd and the 16th, in 2025. To Dubai. I like driving cars. Budget: 1,000,000 rubles.

Output

```
{'min_cost': 1000000,  
'max_cost': 1000000,  
'city_from': 'Moscow',  
'white_list': 'Dubai',  
'black_list': ' ',  
'preference': 'fast driving',  
'with_dates': '2025-06-03',  
'end_dates': '2025-06-16'}
```

FactGenerator

ServiceAPI

Input

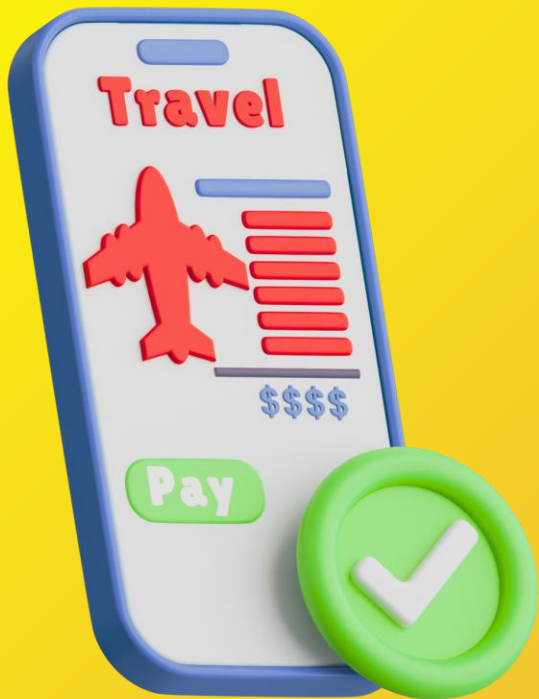

```
{'min_cost': 1000000,  
'max_cost': 1000000,  
'city_from': Moscow,  
'city_to': 'Dubai',  
'start_date': '2025-06-03',  
'end_date': '2025-06-16'}
```

Output

```
{"booking": booking_url,  
 "google_flights": google_flight_url,  
 "rzd": rzd_url}
```

Competitive Advantages

- Group-based recommendations
- Maximum simplicity and adaptability
- Preference analysis from natural chat messages

Next Steps

- Testing with real users
- Collecting feedback
- Iterations and improvements
- Expansion opportunities:
ticket purchasing, Google Calendar
integration, etc.

Conclusion

- ✦ Analyzed the market and identified user needs
- ✦ Developed an MVP product for travel organization
- ✦ Conducted initial stress tests of the product
- ✦ Integrated Booking and Google Travel
